4. Precautions

(1) Those who applied for the tuition fee exemption last year (academic year 2016) and who wish to receive exemption this year (academic year 2017) must reapply. (Exemption from payment of tuition is not automatically carried over to the following year)

(2) Payment of tuition by persons applying for tuition exemption or deferred payment will be deferred until the results of the screening are determined (bank account withdrawal of persons who registered a bank account for tuition withdrawals is also deferred). However, please note that eligibility will be invalidated if an applicant pays the relevant fees before the results are determined.

(3) Applicants who already submitted the applications for the First and Second Half together (during the submission period for the first half) they do not have to submit an application for the Second Half again later. However, applicants to whom any of the following conditions apply must resubmit their application during the application submission period for the Second Half.

・Cases where the information (family, study or household budget) provided in the application on April 1 has changed by October 1.

・Cases where the applicant has changed programs in September.
  (example: cases where the applicant completes the Master's program in August, and enters the doctoral program in September)

・Cases where the applicant was expected to graduate or complete the program but continues to be enrolled beyond the program duration.

(4) A deferred payment plan is available for tuition fees. If you would like to opt for this plan, please submit a deferred payment application form. For exemption from these fees, you need to submit a separate application form.

(5) English-speaking administrative staff may not be available at the time of your application. In that case, the staff will ask you questions only in Japanese. For international students who have difficulty with Japanese, we suggest that they are accompanied by someone who understands Japanese well for assistance.

(7) The Social Security and Tax Number (Individual Number) System has been introduced in Japan from January 2016. If your Individual Number is written in any of the documents that you need to submit for this application, please paint over the Number with a black pen and make sure that it cannot be read before submitting the document.
