

Raise of the Utilities Fees at the International Lodges and Oiwake Village

Due to the global soaring prices of the fuel costs seen today, the utilities expenses at the international lodges and the other dorms have also risen by around 1.5 times in comparison to the expenditure paid in the previous year as of AY2022. And as this tendency is still underway, we have come to the need to raise the bills of the utilities fees at the international lodges and Oiwake Village accordingly in order to maintain their stable operation.

Hence, please be informed that the electricity and gas fees comprising the monthly utilities fees will both be raised by 1.5 times from the amount presently charged commencing from April 1, 2024. New fees to be billed from April 1, 2024 onwards are as shown in the price chart below.

We highly appreciate your kind understanding and cooperation in regard of this matter.

Utilities fees for each accommodation			
Accommodations	Room Type	Monthly Utilities Fees (Daily Fees)	
		Current Fees	New Fees <small>adapted from April 1,2024</small>
