

## UTokyo Amgen Scholars Program 2024

### Host Laboratory and Research Topic

<b>Name of Faculty Member (Title)</b>	Koji NAGATA (Professor)
<b>Name of Graduate School/ Faculty/ Institute</b>	Graduate School of Agricultural and Life Sciences
<b>Research Topic &amp; Description</b>	Food Biotechnology and Structural Biology 1. Structural analysis and/or functional evaluation of food components 2. Expression and structural and/or functional analysis of membrane proteins
<b>Academic Requirements &amp; Expectations</b>	1) Field(s) of Study
	Basic knowledge on analytical chemistry, biochemistry, molecular biology and food chemistry. Basic laboratory techniques in biochemistry and molecular biology.
	2) Knowledge/ Skill/ Proficiency
	Analytical Chemistry, Biochemistry and Molecular Biology
	3) Academic Background and Research Experience
Credits in Analytical Chemistry, Biochemistry and Molecular Biology	
<b>Lab Website &amp; Relevant Information</b>	<a href="http://webpark1964.sakura.ne.jp/park-ssl/">http://webpark1964.sakura.ne.jp/park-ssl/</a>
<b>Campus / Location</b>	Hongo / Yayoi <a href="http://webpark1964.sakura.ne.jp/park-ssl/a">http://webpark1964.sakura.ne.jp/park-ssl/a</a>
<b>Area of Research</b>	Biochemistry  Bioinformatics  Chemical and Biomolecular Engineering
