

★Japan Habba - Tech Fair ★ Schedule 2 Feb 2019

~Leverage Japan-India advanced technology and talent for future innovation~

■ Objective:

- To promote the latest technology of Japan and India for mutual understanding and to encourage both Japanese and Indian companies for the business collaborations.
- To promote Japanese universities to Indian students in order to offer some study or joint research opportunities.
- To promote Indian top talent to Japanese companies to leverage them for innovation.
- To promote Japanese companies' strengths and challenges to Indian students in order to make them interested in working for Japanese companies.
- To promote Indian HR-tech start-ups to Japanese companies in order to solve the problems such as employment mismatch, talent shortage, and productivity improvement.
