3. Application guidelines for the program specific scholarship

In order to apply for the scholarships, students are required to select **items following instructions** in the “Confirmation of Intention to Receive Scholarship” section at the time of application on UTAS. **Also, those who wish to receive scholarships are required to submit the specified form “Confirmation of intention to receive scholarship”**. Please note the following when you fill in the form.

- (1) It is the applicants own responsibility to check the calculation of the grading coefficient and any other items discussed in this Appendix. Please be aware that special treatment will not be given to cases where scholarships were not awarded due to their not checking every item carefully, even if the application periods of other scholarships have passed. A common mistake made when calculating the grading coefficient is that the number of courses registered and completed is taken instead of the number of credits. Please make sure that the number of credits is used.
- (2) “Last year’s grading coefficient” refers to the grading coefficient for the 2018 academic year. For students in the first year of graduate studies, who were enrolled at other universities in AY2018 should use the grades from that university. As first year undergraduate students do not have grades for AY2018, grading coefficient for the Summer Semester (S1-term and S2-term) of AY2019 should be used. Also, first year undergraduate students who enrolled at UTokyo in September, 2019 do not have the grades, and as such whether or not a grading coefficient higher than 2.30 is achieved will be determined based on the information provided in the application forms.
