(2) If you live in Japan with your family, please submit documents only for family members (spouse/parents/children) living in Japan. However, please make sure you submit the [Record of Independent Household Finances (Form2): 独立家計調書(様式 2)] even if you are living with your family.
(3) If you are enrolled beyond your standard program duration, please submit the [Reason of extension beyond standard course period (Form8): 修業年限超過を超えた理由書(様式8)].

3. Notification of selection results

(1) The result of the selection for the First Half will be notified on UTokyo Academic affairs System (UTAS) in early July. Please log in to UTAS and check "Student Info". If no notification is shown by the middle of July, please contact the Scholarship Team, Student Scholarship and Welfare Group.

※ If exemption is granted, depending on the situation of the family finances, the exemption will be half or full value of the tuition fees.

(2) If you also apply for the Second Half at the same time, the notification of the Second Half will be notified in early December.

4. Precautions

(1) Those who applied for the tuition fee exemption last year (academic year 2018) and who wish to receive exemption this year (academic year 2019) must reapply. (Please note that selection result is not automatically carried over to the following year)

(2) When applying for tuition exemption for the First Half of 2019, you may also do so for the Second Half. However, this does not mean that exemption will be automatically granted for both the First and Second Half at the same time. Therefore, please be sure to confirm whether or not your application is accepted for both halves at the appropriate times.

(3) Payment of tuition will be deferred until the results of the screening are determined (bank account withdrawal of persons who registered a bank account for tuition withdrawals is also deferred) just by applying for tuition exemption. However, please note that eligibility will be invalidated if an applicant pays the relevant fees before the results are determined.

(4) A deferred payment plan is also available for tuition fee if you hope to receive a further deferment. In that case, please submit an application form for deferred payment. (This is different from the form for exemption.)

(5) If applicants submit applications for the First and Second Half together, they do not have to submit an application for the Second Half again later. However, applicants to whom any of the following conditions apply should resubmit their applications during the application submission period for the Second Half.

  • Cases where the information (family, study or household budget) provided in the application on April 1 has changed by October 1.
  • Cases where the applicant has changed programs in September.
    (example: cases where the applicant completes the Master's program in August, and enters the doctoral program in September)
  • Cases where the applicant was expected to graduate or complete the program but continues to be enrolled beyond the program duration.

(6) English-speaking administrative staff may not be available at the time of your application. In that case, the staff will ask you questions only in Japanese. For international students who have difficulty with Japanese, we suggest that they are accompanied by someone who understands Japanese well for assistance.

(7) The Social Security and Tax Number (Individual Number) System has been introduced in Japan from January 2016. If your Individual Number is written in any of the documents that you need to submit for this application, please paint over the Number with a black pen and make sure that it cannot be read before submitting the document.
