Weekly topic will be announced via email. Please **sign-up**

**Goals of this online Language Exchange Table:**

1. To promote students’ interests in learning their target languages in authentic contexts and topics with their target language community.
2. To provide a space for learning culture and language from the native (or near-native) speakers.
3. Help students improve their cross-culture communication skills in a friendly environment.
4. Connecting UBC students in Canada and partner university students in Japan and on UBC campus with a view to enhance their mutual understanding.

Under the current extraordinary Covid-19 situation, we believe connecting our students with you via an online platform would be accessible, meaningful and beneficial for all.

**Who should join this exchange?**

This exchange would be beneficial to students who think:

----- “I want to practice my English with students studying Japanese at UBC in Canada,”

----- “I am unable to study at UBC from September onwards but I still want to connect with UBC students”

----- “I am an exchange student at UBC and would like to connect with more UBC students beyond my own classes”

----- “I would like to know what Canadian University student study, and what their student life is like”

----- “I would like to learn more about cultures and customs of various countries”

----- “I would like to improve on my cross-cultural communication skills”

----- “I would like to connect with university students in Canada and learn about our commonalities and differences including our life styles and ways of thinking”

**What is the format for the exchange?**

3 weekly 50 minute (25 minutes each for exchanges in English and Japanese) by-level online language exchange sessions will be offered in Vancouver Time weekly starting on September 23 until December 2, 2021. Topics will be provided weekly for all to chat and enjoy in group conversations and/or in an one-on-one format.

Please consult the Facebook link below for information on our previous face-to-face Language Table up to 2020 and online Language Table in 2021. New information regarding this year’s online Language Table will be posted in due course.
