Dr. Edwin Olson

Dr. Olson has focused on the development of autonomous vehicles for over a decade, including leading programs for both Ford Motor Company and the Toyota Research Institute. He was awarded a DARPA Young Faculty Award, named one of Popular Science's "Brilliant 10" in 2012, and was the winner of the 2010 MAGIC robotics competition. In 2019, he was named "Entrepreneur of the Year" by Ernst and Young. Under his leadership, May Mobility was named one of Fast Company's Most Innovative Companies in 2019.

Dr. Olson holds a PhD from the Massachusetts Institute of Technology in Computer Science and Electrical Engineering.
