# UTokyo Study Abroad and International Programs

# Voices of people who experienced international exchange

"To get started anyway" is the most important thing to keep in mind when studying abroad.

You will be able to see something fresh and expand your view of the world.

See the world you haven't lived in

Various merits such as language ability, understanding of different cultures, self-reflection, etc.

I may regret not going to study abroad, but I rarely regret going to study abroad

You can experience what diversity is.

## The University-wide Short- term Study Abroad Programs

- Summer/Winter programs 2021 were held online (UTokyo covered the program fees).
- For 2022, participating students will need to pay program fees by themselves (both for in-person and online programs).
- However, students who meet certain requirements and eligibilities will be able to apply for scholarships.

# Preparation to join a program

Are there any financial support from UTokyo to join a program?

## USTEP

- Students can apply for non-repayment type scholarships from UTokyo.
- Before the COVID-19 pandemic, approximately 75% of USTEP students received scholarships from UTokyo. Most of the remaining 25% received other scholarships with better conditions.

→ Finding scholarship asap by yourself is very important!

- ✕ Regarding scholarships, UTokyo can not guarantee the same situation every year because scholarships vary depending on the annual budget situation.
