At the Age of Pandemics: Contextualizing Cleanliness and Hygiene in the Past and Present

This event explores the cultural and medical context behind cleanliness and hygiene. The first symposium investigates “where do our idea of cleanliness come from?” across time and space. The second analyzes “how do we face the contemporary and future challenge of hygiene?” contributing to a better public health system.

Organized by **Tokyo College, The University of Tokyo**

Language **English with Japanese simultaneous translation**

Contact **tokyo.college.event@tc.u-tokyo.ac.jp**
