2. JASSO scholarship eligibility and requirements

In accordance with the rules and regulations of JASSO (Japan Student Services Organization), to be eligible to receive the scholarships from JASSO, students must be enrolled and registered in a regular course with the aim of obtaining a degree and graduating and have been selected by the university at which they are enrolled to attend a study abroad program organized by the university to which this scholarship is applicable. They must also meet the following ten conditions.

- ① They must possess Japanese nationality or have been given right of permanent residence in Japan (including special permanent residents).
 - ※1 Foreign nationals who are not permanent residents such as “Dependent (as spouse)” and “Long-Term Resident” are not eligible.
 - ※2 Those who have multiple nationality and meet above ① are eligible.
 - ※3 International students who study in Japan are not eligible even if host universities accept them.
- ② Students who have been accepted by overseas host universities based on agreements and/or MOU's on student exchange.
- ③ Students who demonstrate excellent academic achievements at the home university, as well as a good

personality; in addition, students must have a minimum of 2.30 (out of 3.00) Grading Coefficient, which is calculated using JASSO's Grading Coefficient calculation method, based on a transcript from the previous academic year. If the applicant's transcript of the previous academic year is not available at the time of screening, in principle, the Grading Coefficient will be calculated based on their transcripts of the previous semester.

※1 For students in the first year of undergraduate studies, academic achievements in the third year at high school should NOT be used.

※2 Those who were on temporary leave from the University of Tokyo in the previous academic year and do not have a grading coefficient from the previous academic year should use the grades in the second preceding academic year. Those who were on temporary leave from the University in the second semester in the previous academic year and do not have a grading coefficient from the second semester in the previous academic year should use the grades from the second semester in the preceding academic year.

Note 1: If you are receiving scholarships from other organizations, please make sure that you are permitted to

Note 2: If you are receiving JASSO's 'Benefit scholarship', you are not permitted to receive this scholarship. - ⑩ Students who understand they will be studying abroad in countries or regions with Level 2, Avoid Non-essential Travel or Level 3, Avoid All Travel alert issued as Ministry of Foreign Affairs of Japan's Travel Advice and Warning on Infectious Diseases.

3. Application guidelines for the scholarship

In order to apply for the scholarship, students are required to select items following instructions in the "Confirmation of Intention to Receive Scholarship" section at the time of application on UTAS. Also, those who wish to receive the scholarship are required to submit the specified form "Confirmation of intention to receive scholarship." Please note the following when you fill in the form

- (1) It is the applicants' own responsibility to check the calculation of the grading coefficient and any other items discussed in this Appendix. Please be aware that special treatment will not be given to cases where scholarships were not awarded due to applicants not checking every item carefully, even if the application periods of other scholarships have passed. A common mistake made when calculating the grading coefficient is that the number of courses registered and completed is taken instead of the number of credits. Please make sure that the number of credits is used.
- (2) "Last year's grading coefficient" refers to the grading coefficient for the 2021 academic year. For students in the first year of graduate studies, who were enrolled at other universities in AY2021 should use the grades from that university. As first year undergraduate students do not have the grades for AY2021, grading coefficient for the Summer Semester (S1-term and S2-term) of AY2022 should be used. Also, for first year undergraduate students who enrolled at UTokyo in September 2022, whether or not a grading coefficient higher than 2.30 is achieved will be determined based on the information provided in the application form.
