Lecture

Cancer Research - Inspiration from the Nobel Prizes

Speaker

Carl-Henrik HELDIN

Professor, Uppsala University
Chair, the Board of the Nobel Foundation

Carl-Henrik Heldin is since 1992 professor in molecular cell biology at Uppsala University. Between 1986 and 2017 he was director of the Uppsala Branch of the Ludwig Institute of Cancer Research, and until 2014 Vice-President of the European Research Council. He is also chair of the board of the Nobel Foundation.

During the last 122 years, almost 1000 Nobel Prizes have been awarded in physics, chemistry, physiology or medicine, literature and peace. The Nobel Laureates and their great achievements are a tremendous source of inspiration, including for cancer research aiming at understanding why and how we get cancer, and how it can be treated, which is the theme of the presentation.

2023. **4.22** [Sat.]
4:00 pm - 5:30 pm

Moderator

MIYAZONO Kohei
