Future Mobility: The Relation Between Humans and Services

Speaker

JF Bastien

Distinguished Engineer,
Technologies & Standards,
Woven by Toyota

Mobility—the ability to move people, goods and information—is fundamental for all of humanity. Woven by Toyota's mission is to deliver safe, intelligent, human-centered mobility to the world. We will discuss the variety of software-intensive systems that power this mobility, supported by an advanced, state-of-the-art vehicle-software platform.
