On the other hand, students who apply independently for the Natural Sciences, Social Sciences, and Engineering courses will receive a partner discount (Application Fee+ Program Fee for international students from a partner university).

Link to the Summer 2025 program

You can visit [our website](#) for detailed information.

The program fee includes tuition, orientation, cultural courses, and activities; the meal and accommodation fee is **NOT** included.

Housing information:

Accommodation fee: Due to the shortage of NTU on-campus dormitories, participants will pay additional housing fees (double occupancy around USD 950 to \$1250, per person, during the program period) or find their own accommodations.

Based on the positive feedback about our housing this year, we are pleased to continue partnering with off-campus Pure Co-living on the 9 floor ([map](#)).

Summer+ program participants can sign up to stay at Pure Co-living on 9floor at the time of application.
