	To	Friday 5 September 2025
	Recommended arrival date	Sunday 24 August 2025
	Recommended departure date	Saturday 6 September 2025
Program contents/outline	<p>The Sustainability Abroad Summer School offers international students an unparalleled opportunity to explore the dynamic landscape of sustainability, business foresight, cross cultural management. Students will experience these topics in the context of Thailand, a country renowned for its unique blend of culture and sustainable business practices. In addition, students will be able to compare challenges in Thailand with those back in their home country. This program will focus on real-world learning (experiential learning) through seminars and workshops plus beneficial industry visits, connecting international students with industry and business leaders. Through participation in this program, students will be able to connect the dots between the Sustainable Development Goals and enhance their knowledge on a global perspective related to sustainability.</p> <p>In addition, students participating in this Summer School, will also be able to enhance their understanding of local culture and customs through excursions and activities designed to broaden the knowledge of Thai culture for international students. Through hands on learning, students will delve deeper into religion and society, local customs, music and arts, food and entertainment and history and heritage. Students will also travel the neighboring and the historical city of Ayutthaya which was the former capital of Thailand.</p> <p>本学学生が集団で参加するプログラムで、参加学生は主に本学学生及び他大学の日本人学生となります</p>
