

Dear Applicants and Residents of the UTokyo Student Dormitories,

Please find below the University's policy regarding the introduction of all-gender floors in the UTokyo student dormitories.

As the manner in which the all-gender floors will differ depending on the dormitory, applicants are asked to ensure that they fully understand the distinctive features of the shared facilities at each dormitory by checking the application information on the relevant UTokyo student dormitories before applying.

### Statement on the Introduction of All-Gender Floors in University Housing

The University of Tokyo articulated our commitment to respecting diversity in the University of Tokyo Charter and further adopted the University of Tokyo Statement on Diversity & Inclusion in June 2022 to announce the university's policy of respecting diversity and promoting inclusion. Additionally, in February 2024, the university published our Guidelines for Students on Diversity of Sexual Orientation and Gender Identity at the University of Tokyo.

University housing facilities are established with the expectation that university community members with diverse attributes, backgrounds, and values will deepen mutual understanding through daily life, promote cross-cultural and international exchange, and thereby build broad human relationships.

Based on these principles, all-gender floors will be established in university housing as inclusive spaces where people can reside regardless of their sex or gender identity. While maintaining gender-segregated floors for residents who do not wish to choose all-gender floors, the university's management policy for housing is that all-gender floors will become the standard option once adequate measures to ensure individual privacy and safety have been put in place.

Toward that goal, the university will increasingly offer options other than gender-segregated floors in order to create an environment where diverse students can live with peace of mind while taking into consideration the architectural characteristics of each housing facility.
